REMARKS

The Notice of Allowance dated August 6, 2010, has been received and is respectfully acknowledged by Applicant. In response to the Notice of Allowance, Applicant respectfully requests entry of the above amendments.

New claims 38-42 have been added dependent on allowed base claims 1, 3, 13, 14 and 15. The new claims are fully supported in the specification at least in the *Technical Field* of the originally filed specification. No new matter is introduced by these claims, and for the reasons advanced below, no new materials issues should be raised that would prevent entry of this amendment at this stage.

The new dependent claims 38-42 were originally presented as independent claims in the present application, and were withdrawn with traverse in response to the Election of Species requirement, dated August 23, 2005. Although they were previously withdrawn and unexamined, these claims are clearly patentable and do not require any additional search or examination, because they are all dependent on allowed independent claims. These claims were not previously presented because Applicant did not realize until a final review of the application following receipt of the Notice of Allowance that the withdrawn claims had not been rewritten into dependent form.

It is believed that no fees are presently due; however, should any additional fees be required (except for payment of the issue fee), the Commissioner is authorized to deduct the fees from Deposit Account No. 19-2380 for any fees inadvertently omitted which may be necessary now or during the pendency of this application.

In view of the foregoing, Applicants respectfully request reconsideration and allowance of the instant application including the entry of the above amendments. If a conference would be helpful in expediting prosecution of the instant application, the Examiner is invited to telephone the undersigned to arrange such a conference.

Respectfully submitted,

NIXON PEABODY, LLP
